Professional consulting for the planning and evaluation of scientific studies

for specialist departments, institutes and companies

Regular participation in further education and training courses as well as national and international congresses ensures that our consulting is in compliance with the latest guidelines and standards.
All parts of our study advisory service and support are available either separately or as a whole package. Please contact the center directly for a brief and free of charge informational phone call (approx. 15 minutes). The costs of a more detailed consultation and the services depend on the required amount of work in hours.

Scope of services	Workload	Amount per hour
e.g. project planning, trial execution, analysis and interpretation, presentation of results	according to the actual effort	starting from 150,00 Euro (plus VAT)

Project planning
- Planning and designing the study according to the guidelines for Good Clinical Practice
- Organizational (e.g. project steps, cost calculations) and content-related (research questions, endpoints) support

Trial execution
- Trained raters with focus on disorders with neuropsychological symptoms
- Testing procedures and data collection

Analysis and interpretation
- Serving as a central evaluation center for neuropsychological tests
- Complex data management
- Consulting on project-specific statistical evaluations
- Performance of project-specific statistical evaluations

Presentation of results
- Preparation of results for presentation at national and international congresses according to the current guidelines of the American Psychological Association (APA)

Status: July 2019
